I am Yasser, a graduate with a bachelor's degree in Psychology and Communication and Journalism from the Hebrew University of Jerusalem. Additionally, I hold a master's degree in Humanities with a focus on Israeli Studies from the University of Be'er Zait. At the beginning of my academic journey, I initially enrolled in computer science studies at the Hebrew University, but I discontinued my studies before the exams period of the first semester.

With a psychometric score of 689, emphasizing the quantitative aspect. I also scored 97 in 5 units of Electronics and Computers in the matriculation exams. I graduated with an average of 86.06 in my bachelor's degree and excelled in my master's degree.

In the last seven months, I completed a Full Stack Development course at HackerU College, where I acquired knowledge and practical experience through projects in both server-side and client-side development.

Client-side knowledge and tools: HTML, CSS, SASS, Bootstrap, JavaScript, TypeScript, React, MaterialUI, RestApi.

Server-side knowledge and tools: MySQL, MongoDB, Node.js.

Work Experience:

Project Manager (January 2023)

- Role: Manager for the Search section in "Aman" center, the Arab center for a safe society
- Developed a comprehensive work plan.
- Established a proficient steering committee for the project.
- Engaged partners from the settlement, including council head, welfare representatives, sports director, community center director, youth coordinator, and other stakeholders.

Coordinator (January 2021- March 2023)-

- Position: Coordinator and Mentor at Nathan, a nursing company
- Company focus: Providing comprehensive care, monitoring, and assistance to individuals facing challenges in daily functioning at home
- Guiding and supporting mentors
- Occasional involvement in mentor recruitment
- Assisted one young man in embarking on his academic journey for higher education.

Recruiter (January 2019- June 2019)-

- Organization: LEAD Association
- Mission: Fostering leadership development in Israel
- Current focus: Interviewing 10th grade student candidates from the Arab Society for the training course
- Conducting meticulous and in-depth interviews with prospective candidates
- Assessing candidates' suitability and potential for leadership development

Education summary:

- Full Stack Web Development Course (Front Back End Developer), Aug 2023-March 2024, HackerU | Ramat Gan, Israel,
- Bachelor of Arts - Oct 2015 - Jun 2019, Hebrew University of Jerusalem | Jerusalem, Israel

Psychology And Communication.

- Master Degree - Sep 2021 - Jul 2023, Birzeit University | Birzeit, Palestinian Territories

Humanities, Israeli Studies.

Volunteer engagement:

- **2009-2018:** Volunteered at the "Simcha Layeled" association, providing personal support to children and their families, fostering a supportive environment throughout their hospitalization and rehabilitation process.

- **2014-2018:** Actively involved as a partner and as a manager in some point, in a student volunteer group, leading various educational projects such as academic guidance, mentoring, and organizing cultural events.

Projects:

- **Jul-Nov 2019: Hasoub annual conference,** As part of the marketing team for the annual conference of the "Hasov Association," which focused on entrepreneurship and technology in Arab society, I effectively advertised and marketed the event through social networks, phone calls, and securing media coverage.

Knowledge of computer software:

Office (Excel, Word, PowerPoint), email, social networks (LinkedIn, Facebook, Instagram) and the Internet in general, Canva.

Language: Arabic- Mother tongue language. Hebrew- Mother tongue level. English- High level.
