I am Yasser, As I embark on my career journey, I am enthusiastic about applying my diverse skill set and my background to contribute effectively in the dynamic field of Full Stack Development. In 2019 I have graduated from the Hebrew University of Jerusalem holding a bachelor's degree in Psychology and Communication and Journalism.

With a psychometric score of 689, emphasizing the quantitative aspect, I further demonstrated my proficiency by scoring 97 in 5 units of Electronics and Computers in the 'Bagrot' exams. Graduating with an average of 86.06 in my bachelor's degree, I excelled in my master's degree, showcasing a commitment to academic excellence.

In the past seven months, I successfully completed a Full Stack Development course at HackerU College, augmenting my skills and practical experience in both server-side and client-side development. My proficiency in client-side technologies includes HTML, CSS, SASS, Bootstrap, JavaScript, TypeScript, React, MateriaUI, and RestApi. On the server-side, I am adept in using MySQL, MongoDB, and Node.js.
